FOR HOSPITALS & HEALTHCARE

Calm, steady security for the people who care for others.

Unarmed, healthcare-trained officers for hospitals, clinics, behavioral health and long-term care in Illinois.

Healthcare workers face some of the highest rates of workplace violence of any profession. Our officers de-escalate first, work at the direction of your clinical staff when a patient is involved, and write down what happened — so your team can focus on care.

HOW WE HELP

Emergency department
A steady officer at the ED entrance who calms things down early and calls for help fast.

Front entrance & visitors
Friendly check-in, visitor badges and after-hours single-point entry.

Patient standby
Non-clinical observation when your clinical staff asks for it, with handoff notes.

Emergency codes
Officers know their role in your codes and drills — combative person, missing patient, evacuation.

Parking & escorts
Garage and lot rounds, and walks to the car at shift change.

Clear reports
Written reports that support your workplace-violence program and accreditation reviews.
